

PROFIT RECOVERY MATTERS.

To Us.

To You.

The TMG Difference

Founded in 1997, The Maher Group profit recovery services benefit business owners in a wide variety of industries, including:

- Grocery
- Retail
- Manufacturing
- Distribution

TMG adapts its proprietary profit-recovery software to create custom auditing processes compatible with established company operating practices.

At The Maher Group, Your Company's Bottom Line Will Matter.

Companies today are finding it increasingly critical to discover new ways to grow revenue.

As economic cycles fluctuate, businesses are challenging staffs to do more with less in order to increase productivity, leverage margins, and optimize the bottom line. Yet, with these demands, errors, mistakes, over-payments, and under-deductions occur, resulting in lost revenue.

The Maher Group is a company of profit optimization specialists who recover lost revenue for clients by reducing erroneous payments, improving processes, and enhancing overall fiscal performance.

An annual independent recovery audit can result in an instant improvement in cash flow by locating lost profits.

Recovery audits help to reduce costs, enhance efficiencies in the cash flow chain, and to perfect business methods that lead to better profit margins.

TMG Services

Our auditing and consulting specialists will:

- Utilize adaptable, proprietary software to identify, document, and recover lost revenue
- Provide a detailed review of all transactions, including client invoices and payment history
- Provide comprehensive review and analysis of vendor contract compliance
- Thoroughly review promotional allowances
- Complete invoice cost review
- Review cooperative advertising
- Provide a complete direct store delivery review
- Respect—and protect—client/vendor relationships
- Submit complete documentation and timely claims
- Recover lost revenue with minimal use of internal staff and office resources
- Review underlying processes and procedures to uncover root causes of transactional errors
- Provide detailed review of TMG audit recoveries
- Recommend process improvement solutions to prevent future losses
- Provide value-added reports to assist in greater efficiencies
